BOX OB 03 To Go

Product description OB03

OCTO Box OB03 convinces by a unique system power of 200 kg, the flat and compact design of only 10,5 cm and two whisper quiet motors.

The OB03 system has been developed especially for very demanding boxspringbed systems.

The "One Part Concept" replaces any fittings and also allows the use of the storage space under the bed (storage and canapé function).

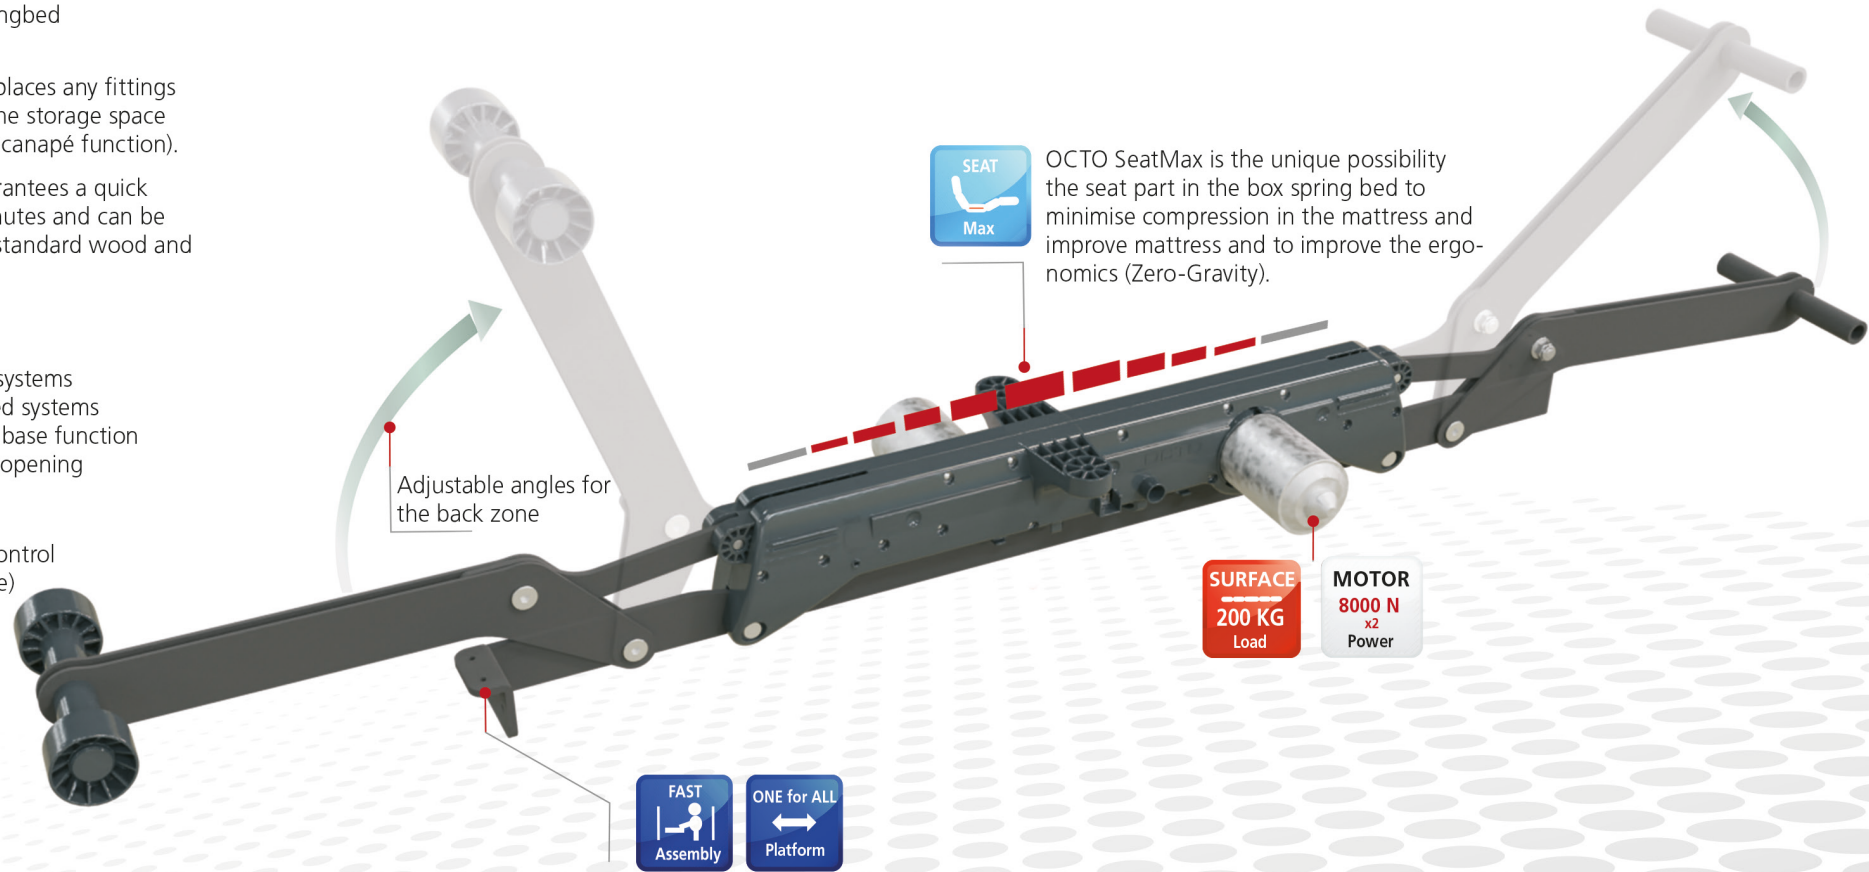

The OB03 drive system guarantees a quick mounting of less than 2 minutes and can be installed efficiently with all standard wood and metal boxspringbeds.

Areas of use

- Adjustable boxspringbed systems
- Adjustable Continental bed systems
- Adjustable beds with bed base function and with lateral bed base opening

Options

- Radio and cable remote control
- Neck fitting (Synchro-Drive)
